

## Create Your Own Name Tag

### Directions:

Imagine yourself as a special, unique seed. Give your seed a name. Think about your unique qualities. Include three phrases, chosen from the variety of seed packets in the basket on your table, that best describe you. You may add any additional words to describe your seed as you wish. Be sure to use descriptions and illustrations describing your seed's appearance. Please include any requirements needed for your seed to thrive and grow (water, sunshine etc.). Use the seed packet as your name tag for the remainder of this workshop.

Use the materials (crayons, markers, etc.) on the table to create your nametag.

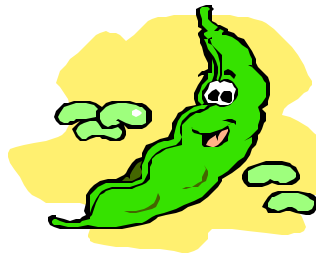

*Lucy Lettuce*

*Trish Tomato*

*Larry Lima Bean*

### Example

#### Lucy Lettuce

I thrive in sunshine.  
I love water.  
I am a cool weather gal.  
Crisp, juicy and tender  
Can be used to describe me.
