## Testimonial of Use

*"This is an awesome program that will benefit all early childhood providers. Lots of interesting information and many wonderful pre-made curriculum ideas." - Diana Douglas, Early Childhood Instructor, Johnston Community College*

## Tell Me More - What Will We Be Doing?

As North Carolina's child care licensing standards are being upgraded to ensure quality educational opportunities for preschool children, the North Carolina Farm Bureau Ag in the Classroom program is providing training for instructors of child care providers.

This training opportunity provides a 4-week complete package of lessons which can serve as an enhancement to your Health, Safety and Nutrition; and, Exploration Activities (Math and Science) curriculum. However, a multidisciplinary approach is employed enabling teachers to integrate a variety of skill areas. For example, lessons include sensory activities, art projects, stories, cooking, group and individual recreational experiences, songs, and many more lesson designs.

In the workshop, you will preview and prepare all materials needed to deliver the entire 4-week program. Upon completion of this training, participants will be certified and prepared to deliver the curriculum to students involved in Early Childhood Education.

### Registration

In order to register for this workshop, a teacher should complete and mail the registration form at the bottom of this page to:

**Louise Lamm**  
**NC Farm Bureau AITC**  
**P. O. Box 27766**
